Mr. Scott D. Fier  
President Sales/Marketing  
American Highway Products Ltd.  
P.O. Box 640  
County Road 99, Bolivar Ind. Park  
Bolivar, OH 44612-0640

Dear Mr. Fier:

We have examined the Manhole Ring Riser and have reviewed the video tape detailing the installation procedures and have contacted a few state transportation departments. The examination, the video review installation procedures and the recommendations were highly satisfactory.

The manhole ring riser manufactured by American Highway Products is acceptable to the Iowa Department of Transportation for use on its projects.

Your manhole ring riser will be placed on our approved list of suppliers (I.M. 449.05). In the mean time, this letter will serve as your temporary approval until the aforementioned I.M. (Instructional Memorandum) is up-dated in October 1997.

We regret the delay in our approval process and should you have any questions or desire any further discussion, please advise.

Sincerely,

Sam Moussalli, P.E.  
Structural Materials Engineer
